Scrap Recycling
Industries, Inc.

NEXXT ISRI's ■ Next ■ **Twenty** Years

2008 ISRI Convention & Exposition

April 6-10, 2008 • Mandalay Bay Resort & Casino, Las Vegas

Celebrate the First 20 Years... Explore the Next 20 Years

ISRI's 2008 Convention and Exposition will celebrate ISRI's 20 years as the Voice of the Recycling Industry and explore the next 20 years. We'll take a look at how ISRI and our members have changed the face of the industry already, paying tribute to the individuals, families, and businesses that have led the way to our position today.

We'll look closely at the many challenges that face our industry today and in the next two decades. The scrap recycling industry both impacts and is impacted by issues of safety, the environment, trade, economy, and community.

ISRI's next convention also features the largest exhibit hall in history, with over 200 exhibitors showcasing the latest in equipment, technology, software, and services.

Attendees will come from every state and from dozens of countries. The ISRI Convention and Exposition is the largest networking event in the world for the scrap recycling industry.

Register by Feb. 12 and save up to \$100 on every registration.

Networking Opportunities with Scrap Recycling Professionals from Around the World

ISRI offers many opportunities, official and unofficial, to network with colleagues — one of the top three reasons to attend the convention.

Exhibit Hall Gala Opening Reception and Final Night Anniversary Celebration

Opening night at the ISRI convention is always a highlight of the program, filled with information and entertainment. This year's Gala, sponsored by Anheuser-

Busch Recycling Corp., provides a chance to celebrate with your friends and colleagues. The opening event also debuts ISRI's largest trade expo ever. And this year's final night event, An ISRI Birthday Celebration, is a black-tie optional gala that will feature dinner, music, entertainment, and a program recognizing our industry's achievements and the individuals, families, and businesses that have been a part of it.

Exhibit Hall Luncheons

Speak with vendors and colleagues about products and services offered by the exhibitors at the trade expo while enjoying an informal lunch.

Meet Your Consumers Reception

ISRI offers a unique opportunity to meet with representatives of industries that purchase scrap materials. Learn more about your customers and their specific needs.

ISRI Women's Council

ISRI's Women's Council takes a leading role in the future of the scrap recycling industry. Meetings, workshops, and receptions sponsored by the Women's Council and its members will focus on issues of mutual concern and provide networking opportunities for women—and men—in the industry.

ISRI Cyber Café

Stay in touch with friends and coworkers, check the latest news from home and from financial markets around the world at ISRI's Cyber Café.

First Timer's Orientation

This session is specifically for recycling professionals who have not attended previous ISRI conventions. Meet other first timers and learn how to get the most out of your convention experience.

Program Highlights

The Chair's Breakfast

Tuesday, April 8, 7:30 a.m.

Lifetime Achievement Awards Presentation

Speaker:
Malcolm Gladwell

ISRI's outgoing Chair Frank Cozzi will discuss the association's accomplishments in our first twenty years, our current and ongoing issues including safety, material theft, and our industry image, and will provide his "view from the Chair" of our future challenges and opportunities. This session also includes the presentation of ISRI's Lifetime Achievement Awards.

Following the business presentation, hear from keynote speaker Malcolm Gladwell. Gladwell has been a staff writer with *The New Yorker* since 1996. In 2005 he was named one of *Time Magazine's* 100 Most Influential People. He is the author of two books, *The Tipping Point: How Little Things Make a Big Difference*, (2000) and *Blink: The Power of Thinking Without Thinking* (2005), both of which were number-one *New York Times* bestsellers. From 1987 to 1996, he was a reporter with *The Washington Post*, where he covered business and science and then served as the newspaper's New York City bureau chief. He graduated from the University of Toronto, Trinity College, with a degree in history. He was born in England, grew up in rural Ontario, and now lives in New York City.

The President's Breakfast

Wednesday, April 9, 7:30 a.m.

General Session on Industry Safety

Speaker:
Charlie Morecraft

Sponsored by
RecycleGuard®

Wednesday's general session focuses on issues of importance to the industry, and the 2008 session will highlight the industry's image and our greatest challenge—the safety of our employees and visitors.

The keynote speaker for this session is Charlie Morecraft. Most employees have the same attitude about safety that Charlie Morecraft had during his more than 15 years' experience as an employee of an oil refinery. And then one day he was critically injured in an explosion that nearly took his life. In his safety presentation, Charlie conveys in a compelling way the lesson he learned at such cost. When he spoke at ISRI's 2005 Operations Forum, the audience was deeply moved by his presentation, sparking a renewed interest in safety. His message for managers is equally compelling and will leave you motivated to never again take safety for granted while gaining a deeper appreciation for the importance of attitude and personal responsibility.

The Chair-Elect's Luncheon

Thursday, August 10, 12:00 p.m.

Design for Recycling® Award Presentation

Speaker:

Marcus Buckingham

Sponsored by Caterpillar®

The Chair-Elect's Luncheon wraps up the convention with a look at the future of the association and the industry, hosted by ISRI Chair-Elect George Adams. ISRI will also present its third Design for Recycling® award at this closing general session.

Our keynote speaker, Marcus Buckingham, graduated from Cambridge University in 1987 with a master's degree in social and political science. During his 17 years with The Gallup Organization, he helped lead research into the world's best leaders, managers, and workplaces. He drew on this research and used it as the basis for his best-selling books, *First, Break All the Rules: What the World's Best Managers Do Differently* (with coauthor Curt Coffman) and *Now, Discover Your Strengths* (with coauthor Donald O. Clifton), and *The One Thing You Need to Know*. His latest book is *Go Put Your Strengths to Work*. A subject of in-depth profiles in *The New York Times*, *Fortune*, and *Fast Company*, Buckingham is considered one of the world's leading authorities on employee productivity and the practices of leading and managing.

Commodities Spotlight Presentations

To accommodate the large crowds that traditionally attend the commodities spotlight sessions for copper, aluminum, nickel/stainless, and ferrous, these programs are being moved to the ballroom where the convention general sessions are being

held. Electronic polling will allow audience members to participate like never before. Spotlights are also being presented for paper and rubber. The complete spotlight session schedule is:

Tuesday, April 8

2:00 – 3:15 p.m.

Spotlight on Copper

Spotlight on Paper

3:30 – 4:45 p.m.

Spotlight on Aluminum

Spotlight on Rubber

Wednesday, April 9

2:00 – 3:15 p.m.

Spotlight on Nickel/Stainless

3:30 – 4:45 p.m.

Spotlight on Ferrous

Electronics Recycling Programs

Two years ago, ISRI established a track of electronics recycling programs at the annual convention. Since then, growth in attendance at these sessions has shown that the program track has become one of the strongest workshop programs in the industry. ISRI has designed this program to address the hottest topics in the industry, allowing attendees to learn of current trends and procedures. The program book lists scheduled times for these workshops. Bookmark www.isriconvention.org for future updates and program details. Electronics program workshops begin on Wednesday, April 9 and continue through Thursday, April 10.

Metals ID Track Open to Trade Show-Only Participants

ISRI is planning a four-part metals identification track of workshops on Thursday, April 10. The program is designed to give an overview of metals identification techniques, as well as a discussion of electronic spectroscopic analyzers available to the industry today. As a value added to companies who also bring employees for the trade show only, these programs will be open to attendees with Trade Show-Only badges.

Plan Now to Attend...

The Largest Scrap Recycling Convention and Expo Ever!

The world's largest scrap recycling industry trade show, the ISRI Convention and Exposition grows in popularity and value each year. The 2008 exposition will feature more exhibits and vendors than ever before.

- See new and innovative products, machinery, and technology that can save you time and money.
- Explore more than 200 exhibitors serving the entire scrap recycling industry.
- Meet other business owners, managers, and key employees from around the world.

- Attend workshops designed to improve your business, generate new customers, provide the latest information on environmental and regulatory issues, and more.
- Network with employees, plant owners and managers, supplier reps, and industry experts for the knowledge and insight you need to succeed.

Register by Feb. 12 and save up to \$100 on every registration.

Just for Fun!

Extracurricular Programs for Members, Spouses, and Guests

The 2008 ISRI Convention and Exposition is about business, but not all about business. This year we are offering three special workout sessions in addition to programs for those interested in topics outside the industry.

Tuesday, April 8, 10:00 – 11:15 a.m.

Aerobics Workout

This session will focus on cardiovascular fitness and muscular strength and endurance by offering a challenging aerobic workout that combines circuit training, abdominal strengthening, and stretching/relaxation.

Tuesday, April 8, 2:00 – 3:15 p.m.

Lessons in Gambling

A trip to Las Vegas would not be complete without at least one "Play Like a Winner"

experience. For one afternoon only, ISRI will have its own "Winning Tradition Casino" complete with instructional dealers and faux money. Learn basic rules and the object of the games. Because losing is not allowed, everyone will walk away feeling like a winner.

Tuesday, April 8, 3:30 – 4:45 p.m.

Protecting our Children from Internet Predators

Cyber safety expert Rob Nickel, a 14-year veteran of the Ontario Provincial Police, is globally recognized as an expert in undercover investigations as they relate to the Internet. This presentation will help parents understand the dangers lurking online and give them simple tools they can use to help protect their children in a wired world. Mr. Nickel has spoken to thousands of students and parents throughout North America and has appeared on the Dr. Phil Show, The Big Idea with Donny Deutsch, and hundreds of radio broadcasts and is the author of *Staying Safe in a Wired World: A Parent's Guide to Internet Safety*.

Wednesday, April 9, 10:00 – 11:15 a.m.

Zumba: Latin/Salsa Workout

Zumba is a fusion of Latin and International music-dance themes, creating a dynamic, exciting, effective fitness system. The routines feature aerobic/fitness interval training with a combination of fast and slow rhythms that tone and sculpt the body.

Wednesday, April 9, 12:30 – 2:30 p.m.

Tales of Wisdom from an Unconventional Woman

Joan Anderson is a *New York Times* best-selling author, researcher, reporter, and presenter. She is most widely known for her trilogy of memoirs: *A Year by the Sea*, *An Unfinished Marriage*, and *A Walk on the Beach* and the soon to be published, *The Second Journey—The Road Back to Yourself*. Her narratives speak to women of all ages about reflection, growth, and change. Anderson has been a regular guest on the Today Show, Oprah, and NPR. She has touched the lives of thousands of women by encouraging them to redesign their own lives in their own image.

Thursday, April 10, 9:00 – 10:15 a.m.

Yoga Workout

The session features a dynamic flowing sequence of postures linking breath and movement. Practice begins with postures to warm up all major muscles and joints, then moves into a challenging series to build core strength, flexibility, and endurance, and ends with Yin-style postures (long-held postures that stimulate the health and flexibility of the joints) and deep relaxation. Emphasis is on alignment, safety, and fun. All levels welcome.

Thursday, April 10, 2:00 – 3:15 p.m.

Stop the Clock on Aging—Skincare and Makeup for Age 40+

Ellen Brown, esthetician and national educator at Euphoria Institute of Beauty Arts and Science, a featured presenter at ISRI's 2006 convention at Mandalay Bay, is back by popular demand for Skincare and Makeup for Age 40+. Ten years from now, what will you see when you look in the mirror? From lunchtime facelifts to choosing the right makeup, Ms. Brown will share ageless beauty secrets to help stop your clock on aging. A few lucky ladies will be chosen from the audience for a makeover during the session!

Convention Schedule

SUNDAY, APRIL 6

7:00 a.m. – 5:00 p.m.

**Registration, Hospitality, and
Cyber Café**

8:00 – 9:00 a.m.

Board of Directors

9:00 – 10:00 a.m.

Ferrous Division

Nonferrous Division

Paper Division

9:00 a.m. – 5:00 p.m.

Information Desk/Concierge

10:00 – 11:00 a.m.

Convention Committee

10:00 a.m. – 3:00 p.m.

Chapter Treasurers' Training

11:00 a.m. – 12:00 p.m.

Membership Committee

12:00 – 1:00 p.m.

RIOS Board

1:00 – 2:00 p.m.

Communications Committee

2:00 – 3:00 p.m.

Tire and Rubber Division

2:00 – 3:30 p.m.

Electronics Council

3:30 – 4:30 p.m.

Shredder Committee

4:30 – 5:30 p.m.

**Equipment and Service
Providers Council**

Consumers Council

4:30 – 6:00 p.m.

Recycling Research Foundation

4:30 – 6:30 p.m.

ISRI Resources

MONDAY, APRIL 7

7:00 a.m. – 5:00 p.m.

Hospitality

7:00 a.m. – 7:00 p.m.

Cyber Café

7:00 a.m. – 9:00 p.m.

Registration

8:00 – 9:30 a.m.

Operations Committee

9:00 a.m. – 5:00 p.m.

Information Desk/Concierge

9:30 – 11:00 a.m.

Government Relations Committee

11:00 a.m. – 12:00 p.m.

**Education and Training
Committee**

Trade Committee

12:00 – 1:30 p.m.

Council of Chapter Presidents

1:30 – 2:30 p.m.

Finance Committee

2:30 – 5:00 p.m.

Board of Directors

5:00 – 6:00 p.m.

First Timers' Orientation

6:00 – 9:00 p.m.

**Exhibit Hall Gala Opening
Reception**

Sponsored by Anheuser-Busch Recycling Corp.

TUESDAY, APRIL 8

7:00 a.m. – 5:30 p.m.

Cyber Café

Registration

7:30 – 9:30 a.m.

The Chair's Breakfast

Speaker: Malcolm Gladwell

(See page 4)

9:00 a.m. – 5:00 p.m.

Information Desk/Concierge

9:00 a.m. – 5:00 p.m.

Exhibit Hall Open with Hospitality

9:45 – 11:00 a.m.

**CEO Issues Overview:
Industry Consolidation**

News of mergers and acquisitions within the scrap recycling industry has made headlines in trade publications and in major newspapers in recent months. In this workshop, experts will discuss the actual and potential impacts that consolidation may have on the industry.

9:45 – 11:00 a.m.

**Challenging Rail Rates as
Unreasonable**

Scrap shippers may be able to challenge the reasonableness of rail rates for small and medium-size rail rate disputes, thanks to a decision that the Surface Transportation Board handed down last September. Learn about this decision—named Simplified Standards for Rail Rate Cases, Ex Parte No. 646—and find out whether it could benefit your company.

HOOPS!

ISRI's Exhibit Hall opening reception coincides with the final game of the NCAA Men's Basketball Tournament. ISRI has arranged for giant-screen video coverage of the game in the Exhibit Hall so that basketball fans can enjoy the game at one of the biggest basketball parties in Las Vegas.

Unless otherwise specified, attendance at ISRI board and committee meetings is open to ISRI members only.

9:45 – 11:00 a.m.

Radiation in the Scrap Yard Update

Radioactive materials in the scrap stream are a source of growing concern in the recycling industry. In the United States and abroad, regulators and industry leaders are trying to find ways to reduce accidental radiation exposure to employees, customers, and the environment. This panel discussion features a real-life look into the decisions that have to be made at any yard that detects a radioactive source in an incoming load or during processing operations.

10:00 – 11:15 a.m.

Aerobics Workout

(See page 6)

11:15 a.m. – 12:30 p.m.

Stop, Thief! Foiling Materials Theft

ISRI and its members have worked hard to be a part of the solution to the global epidemic of materials theft. This workshop will feature some of the strategies that have been used to bring success in local communities and will highlight things you can do to reduce the risk of accepting stolen material.

11:15 a.m. – 12:30 p.m.

Export Markets: The Challenges of Bulk and Container Shipping

The challenges presented by scrap's global marketplace are not limited to finding markets. Transporting goods to those markets can be a major challenge as well. This workshop will explore the challenges present in bulk and container shipping.

11:15 a.m. – 12:30 p.m.

Mercury Update

When ISRI was last in Las Vegas, the National Vehicle Mercury Switch Recovery Program (NVMSRP) was a hot topic, but it was not the end of the discussion. This workshop will look at what has been achieved and at newly promulgated EPA rules that impact shredders, scrap processors and brokers, and others who handle autos destined for electric arc furnaces and foundries, including expectations and implementation of the rule and the NVMSRP.

11:15 a.m. – 12:30 p.m.

Stormwater Update

Stormwater management is an issue faced in virtually every business today. Its importance to the scrap recycling industry is growing. This workshop will provide an update to the likely regulatory future of stormwater management,

explore the practical implications, and suggest ways to prepare for it.

12:30 – 2:00 p.m.

Exhibit Hall Luncheon

2:00 – 3:15 p.m.

Spotlight on Copper

The red metal proved far more resilient than many would have guessed last year, despite growing macro economic uncertainties and a global market that many believed was trending toward oversupply. The contrary view held that ongoing production losses due to strikes, lower ore grades, other mechanical problems, and natural disasters (earthquakes), along with China's enormous appetite for refined copper and scrap, would keep the fundamentals in close balance in 2007 and in 2008. Speakers at this year's spotlight will explore copper's global supply/demand balance for this year (and beyond) in a lively open forum that will also include audience participation.

2:00 – 3:15 p.m.

Spotlight on Paper

An open panel discussion will feature experts from several fields addressing the flow and costs of transportation, from local to inter-modal and ocean freight issues. Transporting our goods to their final destination is getting more costly and more difficult every year. With the ever-increasing regulations and global competition, this panel will look at transportation issues affecting our businesses in 2008 and beyond.

2:00 – 3:15 p.m.

Lessons in Gambling

(See page 6)

3:30 – 4:45 p.m.

Spotlight on Aluminum

Although aluminum's price performance throughout last year looked relatively tame compared with other more volatile LME-traded metals, the question remains: Will this trend continue in 2008? Most in the industry characterize the light metal as "well-supplied" with expectations calling for a global supply picture that will more than meet forecasted consumption. At the same time, however, analysts continue to cite increasing raw material costs (bauxite and alumina) coupled with higher energy costs and lower Chinese exports as providing a solid price floor for 2008. Panel members will examine the key near term global drivers for aluminum with special focus on the North American market. Audience participation will also be featured.

3:30 – 4:45 p.m.

Spotlight on Rubber: Asia's Impact on the Tire and Rubber Market

Although China's demand for recycled rubber is not a major driver for tire recycling at this time, the country's appetite for the material may grow significantly in the future. This spotlight will look at two other commodities—steel and paper—examining how China's entry into those markets has caused ripple effects that continue to reverberate through the entire scrap recycling industry. The spotlight will host speakers from the steel and paper industries as well as a professor from QingDao University of Science and Technology to comment on the future of tire recycling in China.

3:30-4:45 p.m.

Protecting Our Children from Internet Predators

(See page 7)

5:00 – 6:00 p.m.

Women's Council

6:00 – 7:00 p.m.

Women's Council Reception

WEDNESDAY, APRIL 9

7:00 a.m. – 5:00 p.m.

Registration

Cyber Café

7:30 – 9:30 a.m.

The President's Breakfast

General Session on Industry Safety

Speaker: Charlie Morecraft

Sponsored by RecycleGuard®

(See page 4)

9:00 a.m. – 4:30 p.m.

Exhibit Hall Open with Hospitality

9:00 a.m. – 5:00 p.m.

Information Desk/Concierge

9:45 – 11:00 a.m.

Business Valuation

Whether you are considering selling your business or are developing succession plans, seeking financing, or planning a merger, you need to know the real worth of your business. This workshop will present a practical, step-by-step approach to assessing your business' worth.

WEDNESDAY, APRIL 9

9:45 – 11:00 a.m.

The Keys to a Successful Driver Safety Program

Often the “forgotten workforce,” drivers face unique safety hazards and exposures on the road, in the yard, and at customer sites. After many months in development, ISRI will launch its new Transportation Safety Program. This workshop will illustrate the necessary program elements for a successful transportation safety program and share examples of current accident-reduction techniques for success.

9:45 – 11:00 a.m.

RIOS—Recycling Industry Operating Standards

For more than five years, ISRI Services Corporation and its members have been working to develop its RIOS program into a workable, industry-specific standard for quality, environmental, and health and safety management systems. RIOS is being implemented at several facilities, and third-party certification will go online later this year. Learn more about the progress and success of RIOS and how it can help your operation.

9:45 a.m. – 12:30 p.m.

Thought Leadership—China’s Future Impact

As the largest international consumer of recovered fiber and scrap metals from the United States, China has played a key role in the growth and the economy of the scrap recycling industry. This session will explore China’s future impact on our industry.

10:00 – 11:15 a.m.

Zumba: Latin/Salsa Workout

(See page 7)

11:15 a.m. – 12:30 p.m.

Steel Futures: It’s all About Transparency?

2008 will mark the formal introduction of steel futures by the LME and the New York Mercantile Exchange following the successful fourth quarter 2007 launch of a rebar futures contract by the Dubai Gold and Commodity. How will the domestic mills respond to hedging as a tool to manage price risk, and what benefits may accrue to service centers and consumers of billet and hot-rolled band? This workshop will examine the pros and cons of a steel-based futures contract and provide guidance on how buyers and sellers of finished steel and scrap can use this new tool in their day-to-day business transactions.

11:15 a.m. – 12:30 p.m.

Achieving Safety Excellence

When is “safe enough” *really* safe enough? In a real-life industry setting, there is no such thing as absolute safety. Even with a strong program in place, in which everyone does every task by the book, gray areas have to be addressed and decisions made. In this panel discussion, recycling facility owners and managers will team with safety professionals to talk about the real-life challenges and the means by which everyone can agree when “safe enough” truly is.

11:15 a.m. – 12:30 p.m.

Reducing Electricity Costs Through Demand Response

Under a system called demand response, scrap processing operations can actually be paid when they agree to reduce their energy usage during grid emergencies. Not only that, but processors can also be paid for the kilowatt load they offer to reduce, regardless of whether a curtailment is necessary. A leading demand-response provider will describe how the system works, where it’s available, and how your operations could profit from it.

12:30 – 2:00 p.m.

Exhibit Hall Luncheon

12:30 – 2:30 p.m.

Lunch with Joan Anderson Tales of Wisdom from an Unconventional Woman

(See page 7)

2:00 – 3:15 p.m.

Spotlight on Nickel/Stainless

Following the stainless steel industry’s massive production cuts last year that ultimately shifted the global primary nickel market from deficit to surplus, many are still unsure that this destocking phase has run its course. The expectation as 2008 began, however, was that as stainless steel production ramps up this year to meet higher demand as well as restocking along the supply chain, transacted prices for primary nickel and scrap will respond positively in kind. Invited speakers will offer their collective views on both the nickel and stainless steel markets in light of a most-uncertain domestic economic outlook for 2008.

2:00 – 3:15 p.m.

Electronics Recycling Program

(See page 5 for information and for updates go to www.isriconvention.org.)

3:30 – 4:45 p.m.

Spotlight on Ferrous

Last year’s global steel market was marked by another billion ton-plus production of raw steel with China, again, as the dominant producer. Domestic ferrous scrap prices, meanwhile, ended the year on a strong note, with market participants expecting this trend to continue in early 2008 based on fresh mill and steel service center buying, tight scrap availability, and lower steel imports thanks to the weak U.S. dollar and upward pressure on ocean freight rates. Questions remain, however, concerning steel’s “staying power” in 2008 given its impressive start matched against an uncertain macro economic backdrop. Along with steel and scrap fundamentals that will be explored by the panel members, speakers will also focus scrap exports and transportation issues affecting both bulk shipments and the use of containers.

3:30 – 4:45 p.m.

Electronics Recycling Program

(See page 5 for information and for updates go to www.isriconvention.org.)

6:00 – 7:30 p.m.

Meet Your Consumers Reception

Workshops and workshop descriptions are accurate at the time of printing. Programs may be added, changed, or deleted.

For the latest schedule and descriptions, go to www.isriconvention.org.

THURSDAY, APRIL 10

7:00 a.m. – 12:00 p.m.

Registration

Hospitality

Cyber Café

8:00 – 9:00 a.m.

Plastics Recycling Group

Plastics recycling is quickly becoming stronger, more viable, and an increasingly larger part of the scrap recycling industry. Join us at this breakfast session as we seek to establish the basic structure for a Plastics Recycling Council within ISRI. If you are an ISRI member currently involved in plastics recycling or are considering the opportunities associated with plastics, you are encouraged to attend.

9:00 – 10:15 a.m.

Metals ID I

The first of four workshops making up a condensed, one-day metals identification seminar. Participants will learn from experts about standard procedures and technologies available for identifying materials coming to the yard.

9:00 – 10:15 a.m.

Electronics Recycling Program

(See page 5 for information and for updates go to www.isriconvention.org.)

9:00 – 10:15 a.m.

Yoga Workout

(See page 7)

Renting Tuxedos for ISRI's 20th Birthday Celebration

For those wishing to rent tuxedos for this black tie-optional event, ISRI has arranged for rental through MW Tux, a nationwide chain of tuxedo rental stores formerly known as After Hours Formal Wear. You may order your tuxedo at the convention or at any Men's Wearhouse or MW Tux location and have it delivered to the bell desk at the Mandalay Bay on April 10. Simply tell the clerk you are ordering for event number 1543063, the ISRI event in Las Vegas, and reference the store #2499. Place your order at least two weeks in advance to avoid a \$20 rush charge. To find an MW Tux near you, visit their Web site at www.mwtux.com. The various tuxedo styles offered are also available on the Web site.

9:00 – 11:45 a.m.

Thought Leadership—Sustainability: Recycling's Place in a Carbon Economy

From Kyoto to Bali, the topic of global warming and carbon reduction has become a focal point of debate in recent years. As carbon reduction and carbon credit trading seem to come closer and closer to reality in the future, what role does recycling play in this carbon-reduced market? This session will explore the latest proposals facing legislators, as well as the challenges and opportunities for the recycling industry.

9:00 a.m. – 12:00 p.m.

Information Desk/Concierge

10:30 – 11:45 a.m.

Metals ID II

The second of four workshops making up a condensed, one-day metals identification seminar. Participants will learn from experts about standard procedures and technologies available for identifying materials coming to the yard.

10:30 – 11:45 a.m.

Electronics Recycling Program

(See page 5 for information and for updates go to www.isriconvention.org.)

10:30 – 11:45 a.m.

Understanding Export Controls

Scrap exporters are subject to a confusing array of export regulations and controls. They may not even be aware of the many requirements they must meet. Are they inadvertently trading with countries on the U.S. sanction or boycott lists? Are they unwittingly selling certain commodities to specific buyers in violation of U.S. laws? An attorney will discuss the most notable export rules and how scrap traders can comply with them.

12:00 – 2:00 p.m.

The Chair-Elect's Luncheon Speaker: Marcus Buckingham

Sponsored by Caterpillar®

(See page 5)

2:00 – 3:15 p.m.

Spotlight on Lead/Zinc

After a several-year hiatus, this commodity spotlight returns following a year that saw lead prices climb to all time highs on supply issues, firm demand, higher Chinese export taxes, and commodity price speculation. Lead was the biggest gainer on the LME in 2007, up 102 percent year-on-year. Supply issues also dominated zinc through most of 2007, but sentiment was far less bullish as the year wound down with LME cash posting a \$1.47 average vs. \$1.48 in 2006—lower but well above its historic trend. Industry executives will examine these two geologically related base metals, comparing and contrasting expectations for the year ahead.

2:00 – 3:15 p.m.

Metals ID III

The third of four workshops making up a condensed, one-day metals identification seminar. Participants will learn from experts about standard procedures and technologies available for identifying materials coming to the yard.

2:00 – 3:15 p.m.

Electronics Recycling Program

(See page 5 for information and for updates go to www.isriconvention.org.)

2:00 – 3:15 p.m.

Stop the Clock on Aging—Skincare and Makeup for Age 40+

(See page 7)

3:30 – 4:45 p.m.

Metals ID IV

The last of four workshops making up a condensed, one-day metals identification seminar. Participants will learn from experts about standard procedures and technologies available for identifying materials coming to the yard.

3:30 – 5:30 p.m.

Board of Directors—Elections

6:00 – 7:00 p.m.

Reception

7:00 – 9:00 p.m.

Final Night Gala—An ISRI Birthday Celebration

Registration

Please read the following information carefully before registering for the convention.

Save Time by Registering Online at www.isriconvention.org!

ISRI's online registration system is faster and simpler than ever before. Simply go to www.isriconvention.org/register. Use the ID number above the mailing address on the back of this catalog and most of your work is done! This year's system allows for easy registration of multiple attendees—coworkers, employees, spouses, and guests. Your registration confirmation is sent to you via email so you can be confident your registration was received.

Using the Registration Form

If you are registering using the printed form, your form and payment must be postmarked or received by fax by March 10. Registrations received after that date will be processed on site.

Register only one individual per form. The registration form may be photocopied. Please type or print legibly, using upper- and lower-case letters.

If paying by check or money order, mail the registration form with your payment to: ISRI Convention, 1615 L Street, N.W., Suite 600, Washington, DC 20036-5610. If you are paying by credit card, you may fax your registration to 202/624-9257. Payment must accompany your registration.

Registration Fees

Full conference registration includes admission to the opening night gala reception, all general sessions, hospitality areas, workshops, spotlights, and extracurricular programs, the Exhibit Hall and the Final Night 20th Anniversary Celebration reception and dinner.

A limited number of tickets to the final night event are available for sale to nonregistered spouses or guests of fully registered attendees. There is a limit of one ticket per attendee, while supplies last. See the registration form for details.

Only representatives of ISRI members in good standing and their guests (or members of specifically invited related organizations) may register for the convention at the member rate. If the firm you represent is a subsidiary of an ISRI member firm, please note the relationship on the registration form to facilitate processing of your registration. All other registrants will be charged the full non-member fee.

Trade Show-Only

ISRI offers a Trade Show-Only registration for those only interested in visiting the ISRI Exhibit Hall. The Trade Show-Only badge allows you to enter the exhibit hall on Tuesday, April 8, and Wednesday, April 9, and includes lunch and other hospitality offered on the exhibit floor. *The Trade*

REGISTRATION FEES

	BY FEB. 12	FEB. 13-MARCH 10	AFTER MARCH 10
ISRI MEMBERS	\$ 700	\$ 800	\$ 900
Attendees, Exhibitors, and Spouse/Guests <i>Spouse/Guest registration is not available to individuals employed in the scrap recycling industry or in related businesses who could qualify for ISRI membership.)</i>			
NONMEMBERS	\$1050	\$1150	\$1250
Attendees, Exhibitors, and Spouse/Guests			
TRADE SHOW ONLY (TUES/WED)	\$ 400	\$ 450	\$ 500
<i>This is the only pass that will admit nonvendors to the exhibit hall. Vendors' exhibit hall passes are for exhibitors' employees only.</i>			
CHILD (AGE 2-16) - FULL REGISTRATION	\$ 200	\$ 200	\$ 200
CHILD (AGE 2-16) - OPENING GALA ONLY	\$ 75	\$ 75	\$ 75

Spouse/Guest Ticket to Closing Reception and Dinner <i>(Limit 1 per fully registered attendee. Quantities limited)</i>			

Lost Badge Replacement Fees

Because your badge is your ticket to all functions, there is a charge for replacing a lost badge.

	FULL REGISTRANT	TRADE SHOW ONLY	EXHIBIT STAFF	CHILDREN'S BADGE
Monday, April 7	\$ 700		\$ 150	\$75/200
Tuesday, April 8	\$ 550	\$ 400	\$ 150	\$ 150
Wednesday, April 9	\$ 425	\$ 250	\$ 150	\$ 100
Thursday, April 10	\$ 275		\$ 150	\$ 75

Show-Only badge does not allow entry into the Exhibit Hall Gala Opening Reception on Monday, April 7. Those registering for Trade Show-Only badges may pick up these badges starting at 7:00 a.m. on Tuesday, April 8.

Get more with your Trade Show-Only Badge this year! ISRI will be offering an abbreviated Metals Identification Seminar on Thursday, April 10. Trade Show-Only attendees are invited to participate in the Metals ID Seminars.

Children's Registration

ISRI is offering a children's registration that allows children to enter the Exhibit Hall, hospitality areas, and other food functions, provided they are under strict and proper adult supervision. Registered attendees may purchase either a full children's registration (includes all food functions) or an "Opening Gala-Only" registration (Exhibit Hall Gala Opening Reception). These tickets are discounted to cover only ISRI's actual costs. Only children aged 2-16 who have been registered for the convention will be allowed into the Exhibit Hall and all food functions.

Press Registration

Complimentary registration for members of the working press may be extended at ISRI's discretion. These registrations are only for editorial personnel of recognized publications, limited to a maximum of three individuals per publication, and do not extend to advertising, marketing, or other personnel. ISRI registration personnel will not process press registrations that have not been

approved by ISRI's Communications Department staff. For information, or to request press credentials, contact David Krohne at davidkrohne@isri.org or 202/662-8525.

Registration Deadline

Preregistration costs less and saves you time when you get to the convention. To preregister, your registration and payment must be received no later than March 10. Registrations received after March 10 will be processed at On-Site Registration.

On-Site Registration and Badge Pickup

ISRI Convention Registration will open on Sunday, April 6 at 7:00 a.m. (see schedule for hours). Preregistered guests are encouraged to pick up badges early, as lines can get long during peak periods prior to the opening gala reception and the general sessions.

If you plan to register on site, please allow a minimum of 20 minutes (longer during peak periods) to process your registration and prepare your badge at the registration desk. Your registration cannot be processed without payment in full by credit card, check, or cash.

NOTE: Spouse/Guest registration is not available to individuals employed in the scrap recycling industry or in related businesses that could qualify for ISRI membership.

Refund/Substitution Policy

Cancellations, substitutions, and requests for refunds must be submitted in writing. The registration fee, less a cancellation fee of \$100, will be refunded if the request is submitted in writing no later than March 10. No refunds will be made to registrants who request cancellation after that date. Substitutions from the same company will be accepted.

Registration Confirmation

ISRI will issue a confirmation email to registrants that have been received with payment, reviewed, and accepted for processing. Where email is not practical, confirmations will be sent by mail. Allow two weeks for receipt. ISRI's confirmation letter applies only to convention registration. ISRI does not confirm hotel reservations. To confirm your hotel reservations, contact your hotel directly.

Registration Desk Hours

Registration will be open during the following hours:

Sunday, April 6

7:00 a.m. – 6:00 p.m.

Monday, April 7

7:00 a.m. – 9:00 p.m.

Tuesday, April 8

7:00 a.m. – 5:00 p.m.

Wednesday, April 9

7:00 a.m. – 5:00 p.m.

Thursday, April 10

7:00 a.m. – 12:00 p.m.

Special Assistance Needs

If you have special needs as addressed by the Americans with Disabilities Act (ADA) or special dietary concerns, please describe them on your Registration Form or contact the ISRI Convention Registrar by March 10.

Email: nancyreynolds@isri.org

Phone: 202/662-8544.

Accommodations & Transportation

Making your reservations in the ISRI block provides you with a discount off the standard room rates at the official convention hotels. It also helps ISRI meet its commitment to the hotel, avoiding penalties and keeping registration prices down.

At press time, ISRI's block of rooms at Mandalay Bay and THEhotel are nearly depleted, despite being the largest room block in ISRI history. These properties will continue to offer the ISRI rate while

available and will offer additional rooms at market rate while supplies last.

ISRI has also contracted a block of rooms at the Luxor hotel, located next door to Mandalay Bay and attached by a convenient monorail system.

Mandalay Bay Resort & Casino

Mandalay Bay Resort & Casino, site of ISRI's 2008 convention, comprises two hotels, both centrally located off the 135,000-sq. ft. casino and a short walk through the property to the Mandalay Bay Convention Center. In addition to the casino and on-site entertainment venues, this all-inclusive resort includes 16 restaurants, an 11-acre tropical lagoon with a lazy river ride, 5 pools—of which one is a wave pool, a full-service luxury spa, and a shopping mall.

Reservations/Rates for ISRI Convention Registrants

Mandalay Bay

\$225 single/double, plus tax

THEhotel

\$255, single/double, plus tax

Luxor—Tower Rooms

\$139 single/double plus tax on April 6-10

\$189 on adjoining weekend nights

Online

www.isriconvention.org/hotels

The online reservation system gives you immediate access to the best available rates at all three hotels allowing you to make instant comparisons.

Phone

877/632-7000 (Indicate that your reservation is for the Institute of Scrap Recycling Industries room block.)

Hotel Reservation Cut-Off

Monday, March 3

A one-night guarantee deposit for each room is required no later than 14 days after the reservation is made. Reservations will be released if the deposit is not received.

This block of rooms is for registered ISRI convention attendees and exhibitors. Rooming lists will be checked against registration lists. Individuals who are not registered will be notified of their need to do so immediately or risk losing the room reservation and/or the convention rate.

Adjoining and Connecting Rooms

Persons wishing adjoining rooms should plan their arrivals for the same date and, whenever possible, go to the hotel's front desk together. Simultaneous assignment of rooms offers the best chance of having your request accommodated.

Deposits and Confirmations

A deposit to cover your first night's stay is required by the hotel; this deposit can be made only by a credit card guarantee. The hotel will send you acknowledgment of your room reservation.

Changing Arrival/Departure Dates or Canceling Reservations

Check your reservation confirmation carefully. If you find it necessary to change or cancel your reservation, contact the hotel directly. The hotel is not required to honor your reservation if you arrive early or late.

Notification of cancellation or later arrival must be given by 6 p.m. three days prior to the date of your confirmed arrival for the deposit to be refunded. Be sure to note the first and last name of the hotel employee with whom you speak and request a cancellation number.

Arrival and Departure

Rooms are ordinarily not available for check-in before 3 p.m. If you arrive earlier, you may not be able to get into a room before that time. Baggage storage is available. Checkout time is noon.

If you experience air delays or other problems en route, call the hotel and provide that information. Be sure to get the first and last name of the employee with whom you speak.

Direct Billing/U.S. Currency

Direct billing to your home or office is available if you establish credit with the hotel. If you wish to bill your hotel charges directly to your home or office, you should contact the hotel credit manager 30 working days prior to your arrival to make arrangements; bank references and a deposit will be required. Foreign guests should allow a minimum of 45 working days.

The hotels accept major credit cards. All hotel bills, whether charged or paid in cash, must be settled in U.S. currency.

Transportation

The hotels are located 4 miles from McCarran Airport. Taxi fare is approximately \$15 from the airport to Mandalay Bay.

Attire

Most of ISRI's convention meetings are business casual. The Exhibit Hall Gala Opening Reception and the Final Night Event are a bit more formal. Coat and tie is suggested for gentlemen for the Exhibit Hall Gala and black tie-optional for the closing event. Cocktail attire is suggested for women for both events.

Weather

In April, Las Vegas temperatures range from an average of the mid-60s to the low 80s. A sweater or wrap may be appropriate for evening activities.

Scrap Recycling Industry Exposition

ISRI's annual exposition is known throughout the industry as the most-comprehensive shopping experience for scrap recyclers concentrated in a single, convenient location. See new and innovative products, machinery, and technology that can save you time and money in your business. The 2008 show is the largest ever, with 20 percent more exhibitors than last year.

The show opens with one of the premier events of every ISRI convention, the Exhibit Hall Gala Opening Reception, on Monday, April 7. The show continues

throughout the next two days to offer you ample time to see specific companies, evaluate and compare products for future purchase, and network with colleagues and vendors.

You can plan your show visit in advance by visiting www.isriconvention.org and clicking on "Exposition." There you can locate specific exhibitors and find links to many of the exhibiting companies' Web sites and contacts for additional information.
